

WHEELOCK COLLEGE

To whom it may concern:

We brought in “Get Out Of Your Bubble!” for two student/parent orientation sessions.

Both parents and students were involved. Students from the first session were quoting Ron in their placement test essays – so in opinion, it was very effective and productive! I was excited to hear about that.

And after the second session, I had parents express excitement and gratitude because it challenged them to get out of their own bubbles!

Thank you!
