Dear Larry,

Thank you for an outstanding performance last spring at our temple, Congregation Beth El of the Sudbury River Valley.

The show was our Congregation's first real fundraising event and it was a great success from several perspectives. First, there was a standing room only turnout. With so many tickets sold, we met our fundraising goals for the night. In addition, the show was a big draw among a cross-section of our membership, and we were also able to attract attendance by non-members from communities across the Metrowest and Boston area.

The content of the show was funny, provocative and current. There was lively discussion afterwards among the guests and everyone enjoyed speaking with you and Ron afterwards.

I would highly recommend your show to other temples or schools, who might be looking for a program that can entertain as well as initiate important dialogue on race relations and the history of Jewish-Black relations.

Best regards,

Rabbi David Thomas
