February 17, 2016

Dear Ron:

I have been meaning to contact you to thank you for helping set up the session with the Dialogues on Diversity group for our Social Justice Summit. During the Dialogues On Diversity Workshop, Larry and Lou, did an amazing job.

I believe that very good conversation happened because of this and you have seen the interest grow from our department in wanting to set up another training session.

As I saw people watching your presentation at lunch, I could see many people really learning. I look forward to seeing how participants will utilize this knowledge in our community.

I truly believe this is one great step in the right direction for social justice.

Again, thank you for everything.
